change in the Ministries of France, Spain, and Portugal.

New York, April 6.—After waiting for two weeks, and our dates being 52 days old, the easterly gale yesterday brought into port a fleet of vessels, and among them, three packets, viz: the Utica, Papt. De Peyster, from Havre, sailed the 2sth of February; Caledonia, Captain Graham, from Liverpool, sailed the first of March; and the Roscoe, Captain Delano, which sailed from Liverpool the 12th March.

Owing to a continuation of Westerly gales, numerous vessels had been detained, some of them thirty days.

By these arrivals the Editors of the New York Daily Advertiser are put in possession of Liverpool papers to the 11th, London the 10th, Paris the 9th, containing Madrid of the 1st March, and a month later dates from all parts of Europe.

Madrid of the 1st March, and a month later dates from all parts of Europe.

The news is of the highest possible interest, so much so, it is difficult, among such a mass of intelligence, to select that which will be the most interesting. The Meeting of Parliament—the Speech—Political changes in the Cabinets of France. Spain and Portugal—Death of the Emperor of Austria—Disturbances in Switzerland—and Hostile Position of Turkey and Egypt—the Markets, &c., are all subjects of deep interest. We have, therefore, selected that which appears of the greatest importance.

portance.

In England, the greatest possible excitement prevailed up to the 19th, the day on which Parliament opened; all business appears to have been laid aside. The Cotton Market even in Liverpool was suspended. In London, bets were made to an immense extent on the result of the Election of Speaker. Both parties claimed to have a majority, and both contended the result would decide the fate of the Ministry. All Europe appears to have been equally engaged. The death of the Emperor of Austria, and the partial breaking up of the French Ministry, appears to have been trivial affairs, when compared with the fate of England. At 2 P. M. on the 19th, the new Parliament was opened by commission—the King not being present. King not being present.

In a few moments after the House of Commons opened, Lord Egerton nominated Charles Manners Sutton, and made a speech of a half an hour, setting forth his long services and high talents. Sir Charles Bunnell seconded the motion. Mr. Dennison then nominated the Right Honorable James Abercromby, which was seconded by Mr. Old, both of whom spoke at length. Sir Charles Manners Sutton then addressed the House in his defence, and spoke several house the dahete fill noments after the House of Commons his defence, and spoke several hours; the debates fill many columns in the London papers. The vote was then taken, and the result was as follows:

Lord Brougham wished to ask some questions of the noble Duke opposite. He had read in the papers the demise of the Emperor of Austria, and he wished to know whether it was the intention of government to recommend to the successor to the Imperial Threne to take into consideration the situation of those princes and nobles who had for so many years been adjected to the most cruel and minut impresents. HOUSE OF COMMONS—Tuesday.

So early as eleven o'clock large groups of respectable persons were immediately collected outside the entrance of both houses, and the utmost auxiety was exhibited to ascertain the names of the various peers and members of the House of Commons as they passed. The attention of the multitude, however, seemed principally directed to the House o' Commons, and the hearty applause of the crowd was bestowed on those members whose liberal opinions were known; whilst those of an opposite cast were received with hearty disapprobation.

The house met, at one o'clock, for the purpose of swearing the members, and was so occupied for some time. There was rather a full attendance of members.

Soon after his Majesty had arrived at the House of Peers, about two o'clock, Sir Augustus Clifford, the Usher of the Black Rod, advanced to the table of the House, and stated, that his majesty commanded the im-HOUSE OF COMMONS-Tuesday.

THE ADDRESS.

The Royal Speech having been read to the house, Lord Sandon rose to move the adoption of the address in answer thereto. He went through the topics contained in the speech, but threw no additional light upon any of tilem.—He justified the motives of the present Government in taking office, and commented upon the ill-assorted ingredients of which the opposition was composed. His speech was common-place. Mr. Bramston seconded the address, without advancing one argument worth notice.

Lord Morpeth then rose to move an amendment on the address, on the ground that the speech and the addressitself were too vague and indefinite, and contained isstent with the mature consideration of them, would be of great advantage to the public interests.

'Among the first in point of urgency, is the state of the tithe question in Ireland, and the means of effecting an equitable and final adjustment of it.
